SUMMARY

Software Engineer focused on automation, cloud infrastructure, and reliable delivery. Builds and operates production systems using AWS, CI/CD pipelines, and modern web frameworks. Strong frontend and backend foundation with hands-on experience in release tooling, APIs, and developer platforms.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, Ruby, Java, Apex, SQL
Frameworks and Libraries: React, Ruby on Rails, Node.js, Lightning Web Components
Cloud and Infrastructure: AWS EC2, Lambda, API Gateway, Docker, Terraform
CI/CD and Automation: GitHub Actions, Jenkins, Ansible, CI/CD pipelines, SemaphoreCI
APIs and Data: REST APIs, GraphQL, PostgreSQL, SQL
Tools: GitHub, Jira, Linear, VS Code, IntelliJ, Gradle, JUnit, Slack
Development Practices: SDLC, Agile, API versioning, automated testing, release automation

PROFESSIONAL EXPERIENCE

SSMK Consulting LLC | Remote
Junior Software Engineer, Automation and AI | May 2025 – Present

- Automated release and deployment workflows across environments
- Built and maintained CI/CD pipelines for build, test, and production
- Developed backend features and REST APIs in Ruby on Rails
- Deployed and operated services on AWS using EC2, Lambda, Docker, and Ansible
- Wrote automation scripts in Python, Ruby, and shell
- Collaborated through GitHub PRs, code reviews, and Agile sprints in Jira and Linear

Michelin | Greenville, SC
Junior Salesforce Software Engineer | Aug 2024 – Mar 2025

- Supported Salesforce backend configuration, deployments, and post-release validation
- Delivered Apex updates, Flow automation improvements, and platform enhancements
- Participated in Agile sprints, story grooming, and retrospectives
- Contributed to enterprise system upgrades within a regulated Fortune 500 environment
- Worked closely with cross-functional teams to support reliable releases

Michelin | Greenville, SC
Salesforce DOTI Intern | May 2024 – Aug 2024

- Assisted with weekly Salesforce platform releases across multiple business units
- Executed testing, deployment readiness checks, and post-release validation
- Supported user access, permissions, and issue resolution
- Completed hands-on training in Apex, SOQL, and Flow automation
- Gained exposure to enterprise-scale systems and release governance

PROJECTS

ReleaseBot | 05/2025 – Present

- Built a serverless Python backend using AWS Lambda and API Gateway
- Delivered a React dashboard for release, PR, and deployment visibility
- Centralized release runbooks, deployment history, and Jira progress

SlackBot | 05/2025 – Present

- Built a Ruby on Rails service integrating Slack, GitHub, Semaphore, and Linear
- Automated deployment and pre-release notifications to Slack
- Created Slack modals for urgent releases, hotfixes, and production actions

EDUCATION

University of North Carolina at Charlotte
Bachelor of Science in Software Engineering
GPA 3.64 | Dean's List all semesters | May 2025
